ABD ALGHANI MOHAMMAD SHABAAN ABTAH

Software Developer | Python & C Programmer

📍 Irbid, Jordan 📞 [Phone Number] ✉️ [Professional Email] 🌐 [LinkedIn Profile] 💻 [GitHub Profile]

PROFESSIONAL SUMMARY

Software developer with a strong foundation in programming fundamentals, software engineering principles, and algorithmic problem-solving. Proficient in Python with practical experience in Object-Oriented Programming (OOP), data structures, and algorithm implementation. Experienced in C programming, particularly linked lists, stack operations, and dynamic memory management. Skilled in graph traversal algorithms and passionate about writing clean, maintainable code, technical documentation, and optimizing software development workflows.

TECHNICAL SKILLS

Programming Languages

- **Python:** OOP, Dynamic Data Structures
- **C:** Dynamic Memory, Pointers, Linked Lists

CS Fundamentals

- Data Structures & Algorithms
- Graph Search (DFS, BFS)
- Stack & Doubly Linked Lists
- Algorithmic Optimization

Software Engineering

- Object-Oriented Design (OOD)
- Git & Version Control
- Debugging & Code Analysis
- Software Packaging & Docs

PROJECTS

A_maze_ing — Python

Maze generation and pathfinding application focusing on algorithmic problem-solving and clean software architecture.

- Implemented **Depth-First Search (DFS)** for structural maze generation and **Breadth-First Search (BFS)** for optimal pathfinding.
- Applied Object-Oriented Programming (OOP) principles to structure code modules, UI design, and packaging.

Push_swap — C Language

Data sorting project focused on stack manipulation, dynamic memory allocation, and sequence optimization.

- Designed a **Doubly Linked List** as the core dynamic data structure for complex stack operations.
- Optimized sorting algorithms using efficient pointer manipulation and strict low-level memory management.

EDUCATION & TRAINING

42 School — Irbid, Jordan
Software Engineering Program

- Peer-to-peer, project-based C & Python mastery.
- Low-level algorithms & dynamic data structures.

Al-Balqa Applied University — Jordan
Diploma in Information Security & Networks

LANGUAGES & COMPETENCIES

- **Arabic:** Native
- **English:** Professional Working / Fluent
- Strong analytical logic and code reviewing capabilities.
- Focus on software quality, technical documentation, and workflow optimization.
